Same Day Registration

Lesson 1: Course Organization

This course includes the following topics:

- Procedures for SDR during Early Voting
- Procedures for SDR on Election Day
- Completing the Voter Registration Application
- FAQs

Same Day Voter Registration (SDR) refers to the ability to register to vote in-person and then immediately vote a provisional ballot after the deadline to register and vote a non-provisional ballot has passed.

Beginning with the 2022 General Election, Virginia's General Assembly approved legislation that provides the ability to register at any time, up to and including Election Day (§ 24.2-420.1). There are two distinct time periods which have an impact on how SDR is completed; these are the *early voting period* and *Election Day*.

- Regular voter registration ends and registration records are closed 10 days before a
 primary or General Election. This is referred to as 'Close of Books'. This is when the SDR
 process begins and continues until Election Day.
- Election Day refers to the day the election is being held and there is a different SDR process for this day.

A Few Important SDR Facts

Same Day Registration is a process intended to provide a means of registration for those voters who did not register during the regular registration period. SDR is not intended to be a preferred or standard method of registration.

SDR is In-Person Only

SDR is an in-person process **only** and cannot be done with a mailed, electronic, or third-party voter registration application.

SDR Requires a Provisional Ballot

SDR always requires the voter to cast a provisional ballot. Ballots cast by same-day registrants cannot be voted on the machine or counted until they have been adjudicated by the Electoral Board. There are no exceptions.

Where SDR Happens

SDR occurs at an early voting site after the close of books or the precinct in which the voter's current address makes them eligible to vote. There is no SDR at the GRs office on Election Day.

Acceptable Voter ID

All forms of acceptable ID (https://www.elections.virginia.gov/registration/voterid/) apply for same-day registrants. If a same-day registrant does not have any of those forms of ID, they must sign the ID Confirmation Statement.

"No ID" Voter

Should the SDR voter fail to provide ID and refuse to sign the ID Confirmation Statement, denote "No ID" and provisional reason code "7" on the provisional envelope and log.

Deadline for SDR Application Data Entry

The deadline to enter same-day application data received on Election-Day is 5:00pm on the Friday after the Election. In certain cases, ELECT may extend the SDR processing deadlines (for example, in presidential and statewide elections). ELECT will notify localities if there will be an extension to the SDR processing deadline.

Please see the toolkit at the end of this course for more SDR resources.

Lesson 2: Voter Registration Eligibility

Voter Eligibility

In Virginia, to be eligible to register to vote, the individual must:

- 1. Be a US citizen
- 2. Be a resident of Virginia
- 3. Be 18 years or older on or before the next General Election
- 4. Not be registered and plan to vote in another state
- 5. Not currently declared mentally incompetent by a court of law
- 6. Have rights restored if previously convicted of a felony

Lesson3: SDR During Early Voting

During the period between the close of registration and the end of early voting, voter registration is referred to as SDR Early Voting (SDR-EV).

First Things First

When a voter comes in-person to vote during the SDR early voting period, begin by determining if they currently reside where they are registered to vote by asking for full name and current residence address.

The SDR process for Early Voting and Election Day are similar. However, on Election Day, voters are required to vote in the precinct designated by their registration address.

The SDR Process Early Voting (EV)

New Two-sided Provisional Envelope

One side of the Provisional Envelope is now for Same Day Registration provisional voters ONLY. The SDR side of the envelope is pictured below and contains a Voter Registration Application!

Changes to the SDR side include:

- The Large SDR at the top of the form
- Primary Election Party ballot indicators (D / R)
- Additional option for protected voter status
- Officer of Election Use box now contains a field to note the time

Guidelines Related to SDR-EV Include:

Applications:

- 1. Enter voter registration applications the next day/as soon as possible
- 2. Deadline to enter all SDR registration application data in VERIS is the Friday before the election or before you prepare your pollbook for Election Day
- 3. When you enter the registration application in VERIS, use NVRA code SDR-EV

Pollbooks, Provisional Ballots, and Logs:

- 1. The pollbook will indicate that the voter is an absentee voter who voted SDR
- Paper pollbooks may need to be manually marked before you deploy them to the precincts
- 3. Secure the provisional ballots, but do not seal the 1A envelope until the end of the day
- 4. Keep a provisional log, use code 1 Same Day Registration

Important Notes

In VERIS, if a voter is already marked as SDR-EV, process the application as incomplete
 and contact the other locality

 All SDR-EV voter registration applications must be entered into VERIS before you prepare your pollbook

Lesson 4: SDR on Election Day

SDR-ED is voter registration on Election Day.

When a voter comes to vote on Election Day, begin by determining if the voter is registered and eligible to vote at the address stated.

REMEMBER: on Election Day, voters are required to vote in the precinct designated by their registration address.

The SDR Process Election Day (ED)

Guidelines Related to SDR-ED Include:

- Voter must be in the correct precinct for their SDR provisional ballot to count (ONLY difference between SDR-EV and SDR-ED)
- Voter completes voter registration application on Same Day Registration side of Provisional Envelope
- Request acceptable form of ID
- Voter completes a provisional ballot
- Voter returns provisional ballot in sealed provisional envelope
- Provide provisional voter notice
- Complete the envelope with reason code #1
- Complete the Provisional Ballot Log with the reason code #1

Before issuing a SDR Provisional, determine if the voter is eligible to vote on a machine under What-If sections 4-8 (found on FormsWarehouse).

Virginia Provisional Vote and Same Day Registration Application

When completing the Same Day Registration Application side of the envelope on Election Day, remind the individual to:

- to provide all required (*) information
- to write legibly
- to sign and date on Line 7
- to not complete the back side of the envelope

Provisional Ballot Log Update

For any provisional ballot that you accept, you should have an account of this voter on the provisional ballot log. The Provisional Ballot Log has changed! Reason Code #2 has been removed and Reason Code #7 has been labeled as "Voter did not show required ID and declined to complete ID confirmation statement."

Lesson 5: Voter Registration Application on SDR Provisional Envelope

It is important that you familiarize yourself with the Voter Registration Application and be certain that each required field on the application is completed neatly and accurately on the Same Day Registration side of the Provisional envelope.

Voter Registration Application

Application for registration can be submitted using the Virginia Voter Registration Application form on the SDR side of the provisional envelope. There is no cure process for the application. Incomplete applications should be denied by the local voter registration office. It is important that applicants closely follow the instructions on the application to ensure all required fields are completed.

While there is no cure process, it is imperative that General Registrars, Staff, and OOEs ensure that registrants submit complete applications on the SDR side of the provisional envelope.

Always screen a completed application for the issues below:

- Citizenship is affirmed
- Full SSN provided or No SSN was ever issued box is checked
- Date of Birth = 11/07/2005 or earlier
- If no middle name provided, "None" box is checked
- Address provided is within the jurisdiction
- Section 3 completed
- Review Section 4 for conflicting responses or assistance with homeless address questions
- Signature and date provided

Prompt the applicant to enter missing information or offer another application, if necessary.

Voter Registration Application Retention

Considerations

There are two ways in which your locality may manage voter registration application retention:

- 1. Scanning and associating the voter registration application to the voter's record in VERIS
- 2. Copying for placement in voter registration application filing system, which may include alpha cards

May we accept a provisional envelope if the voter completed the wrong side?

When a voter fills out the wrong side of the envelope, that is due to an administrative error, either side of the provisional envelope still contains a sworn statement of the voter's new address, and Code doesn't specify a particular form or format a voter must use to provide address changes. Therefore, these provisional ballots can be counted as long as there are no other issues that would cause the ballot to be rejected.

Lesson 6: SDR FAQs

When can I same day register?

Same day registration begins ten days before an election.

Where do I same day register?

You may same day register at the office of your general registrar or satellite voting location during the early voting period. On Election Day, you must go to the polling place for the precinct in which you reside.

Can people change their address using same day registration?

Yes, a voter who has changed their address can update the registration using SDR; it is not restricted to new registrants.

Will all SDR applications need to be processed before creating the ED pollbooks?

Yes. All voters who register and vote using the same day registration process during early voting have to be entered into VERIS (both registration application and absentee provisional) prior to preparing your pollbook. This will allow those records to show on your pollbooks as having registered and voted using same day registration when your Officers of Election look voters up in the pollbook.

If a voter already has credit when trying to vote SDR in your locality:

If the voter has already cast a ballot in the other locality, the provisional ballot cannot be counted. Enter the voter registration application a incomplete, and after canvass has been completed, finish processing the voter registration application to move the voter into your locality. The provisional ballot for that voter cannot be counted.

Does the 5-day waiting period apply to SDR-EV?

The 5-day waiting period only applies to voters who register while the books are still open and the ballot will be cast on the machine. Because same day registration voters are voting a provisional ballot, the 5-day waiting period does not apply.

Will voters be able to use this process on the Monday before Election Day?

No. Same day registration begins the day after the books close and ends of the final day of early voting. It is available again on Election Day.

Will we know when other localities have uploaded Election Day voting credit?

Localities have to enter all of their Election Day SDR voter registration applications by 5:00 pm on the Monday after the elections. VERIS will flag any voter who has already been entered as an SDR voter (either during early voting or on Election Day). This is your first check on the possibility of multiple registrations/provisional ballots.

May we accept a provisional envelope if the voter completed the wrong side?

When a voter fills out the wrong side of the envelope, that is due to an administrative error, either side of the provisional envelope still contains a sworn statement of the voter's new address, and Code doesn't specify a particular form or format a voter must use to provide address changes. Therefore, these provisional ballots can be counted as long as there are no other issues that would cause the ballot to be rejected.
